

CODE: ILA

STUDENT ASSESSMENT

The Kittery School Committee recognizes that Maine law requires each school administrative unit to use multiple assessment methods to measure student progress toward achieving state and national standards.

Through this policy, the School Committee adopts and directs the Superintendent/designee to implement and oversee an assessment system for the Kittery School Department that will accomplish these objectives. The Superintendent shall be responsible for reviewing the assessment system for compliance with applicable statutes and rules and for certifying to the Commissioner that it is in compliance with Maine Department of Education standards.
