

CODE: KLG

RELATIONS WITH LAW ENFORCEMENT AUTHORITIES

The School Committee recognizes that a cooperative relationship with law enforcement authorities is desirable for the protection of students and staff, maintaining a safe school environment, the promotion of substance abuse prevention efforts, and safeguarding school property.

School administrators and staff shall have the primary responsibility for maintaining proper order in the schools and for disciplining students for violations of School Committee policies and school rules. However, the School Committee authorizes the Superintendent/administration to seek the assistance of law enforcement authorities when they believe there is a substantial threat to the welfare and safety of the schools, students and/or staff. The Superintendent/administration shall also inform law enforcement authorities when they have reason to suspect that a student or staff member may have violated a local, state or federal law.

The Kittery School Committee recognizes the Kittery Police Department as they designated law enforcement agency for the Kittery schools. The School Committee strongly discourages law enforcement authorities from using the schools as a venue to arrest and/or interrogate students for activities not related to or directly affecting the school operations. The Superintendent/administration retains the authority to deny law enforcement access to students for non-school-related investigations.

The School Committee authorizes the Superintendent/administration to work with local law enforcement authorities to develop administrative procedures to guide interactions between the schools and law enforcement. Such procedures should safeguard the rights of students and parents, be consistent with School Committee policies, and minimize disruptions to the instructional program. These administrative procedures are subject to the approval of the School Committee.

In addition, the School Committee fully supports the School Resource Officer program and authorizes the Superintendent to include the School Resource Officer and other local law enforcement authorities in the development of the School Department's Emergency Management Plan. The School Committee also encourages the Superintendent/ school administrators to include the School Resource Officer and other law enforcement authorities in the development and/or implementation of instructional programs/activities related to student safety.
